

# Awning Fabric

Patio 500® performance composite PVC textile is engineered for commercial and residential awnings and canopies. It incorporates specially formulated flexible polymer technology and a high tenacity polyester substrate. It is suitable for sewing, welding, digital printing and fabrication by various means common in the awning fabrication industry. In addition to its durability, Patio 500® Awning Fabric is a commercial grade PVC fabric that carries a five (5) year manufacturer's warranty against UV degradation or fading. It is mildew, stain and dirt-resistant.

545 Ruby

Awnings and canopies fabricated with Patio 500® offer their owner confidence that their awning canopy will stay water-proof, tight on the frame and stay inherently fire resistant. With a properly engineered frame support structure, Patio 500® is suitable for year round snow load and wind load requirements. Awnings made with Patio 500® Awning Fabric will provide years of useful weather and sun protection.

- Endless Array of Colors
- Custom Colors Available
